DETAILED ACTION

*Response to Amendment*

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

*Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Ham et al (US 5,456,667).

Ham discloses a catheter 11 made of a monolithic memory metal tube of a single piece construction made of nickel titanium alloy (programmed for an effect of memory effect and super elasticity, col. 6 line 50 – col. 7 line 14, and col. 8 lines 65-67), and having in at least one section a plurality of slots formed therein (figs 1-7) defining a retrieval basket 12 monolithic with the tube capable of expansion and contraction to surrounding contact, capture and retrieve at least one particle.

Art Unit: 3763

*Allowable Subject Matter*

4. Claim 7 is allowable over the prior art of record.

*Response to Arguments*

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
